DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 08 August 2005 has been entered.

Allowable Subject Matter

2. Claims 8 and 9 are allowed.

The following is an examiner's statement of reasons for allowance: Regarding independent claim 8, the prior art of record neither shows nor suggest a double-ended arc discharge tube having press seal regions and comprised of, in part, each press seal region further having an open capillary channel that extends from outside the discharge tube through the press seal region and into the discharge region in order to provide a passageway for a gas or solid material that is to be placed inside the discharge region.

Due to their dependency, claim 9 is necessarily allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
